

CHILD PROTECTION QUESTIONNAIRE

The following questionnaire will help your organization identify what systems are in place for preventing child sexual abuse, as well as any areas that may be lacking. Before you start reviewing and implementing the Commit to Kids program, it is first necessary to understand what your organization is already doing to help protect children.

Name of organization: _____

Number of employees: _____ volunteers: _____ Number of employees/volunteers working directly with children: _____

- 1** Does your organization have procedures for assessing and managing risk? If so, what are they?
Are they reviewed regularly and every time new programs, services or activities are added?

- 2** Does your organization have a code of conduct that addresses how employees/volunteers interact with children with regard to verbal conduct, physical contact, appropriate boundaries, and inappropriate communication? Is the code of conduct visible throughout the organization and shared with all employees, volunteers and parents?

- 3** Does your organization have screening protocols that assess an employee/volunteer's history at the time of hiring to determine his/her suitability to work with children?

- 4** Does your organization promote regular and informal supervision of all employees/volunteers, particularly those who work with children?

- 5** Does your organization have policies and procedures in place to help employees/volunteers understand what they must do if a child indicates s/he has been sexually abused by someone outside of your organization?
